PROFESSIONAL SUMMARY

Computer Science and Engineering student with a strong academic record (9.74 CGPA) and hands-on experience building software applications using Python, Java, C, JavaScript, and SQL. Developed diverse full-stack and command-line projects, including web-based platforms, information management systems, and a quantum API-driven key-generation workflow. Demonstrates solid fundamentals in data structures, object-oriented programming, and technical problem-solving, complemented by an active technical internship at Infosys Springboard and an additional Honours specialization in Cybersecurity.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, Java, JavaScript
- **Web Development:** HTML5, CSS3, JavaScript, MERN Stack
- **Databases:** SQL, MySQL, MongoDB
- **Core Computer Science:** Data Structures and Algorithms, Object-Oriented Programming, Problem Solving, Operating System Fundamentals, Networking Fundamentals
- **Tools and Platforms:** Git, GitHub, Visual Studio Code, ServiceNow
- **Programming Practice:** LeetCode, HackerRank
- **Additional Knowledge:** Cybersecurity Fundamentals, Cryptographic Fundamentals

INTERNSHIPS & EXPERIENCE

Infosys Springboard Remote
Technical Intern Currently Working

- Gaining structured, industry-oriented technical exposure through standard engineering workflows.
- Developing practical software and engineering skills through technical learning modules and project-based activities.

ServiceNow / SmartBridge / AICTE Remote
ServiceNow System Administrator Virtual Intern Completed

- Gained exposure to ServiceNow administration workflows and enterprise platform environments.
- Explored Flow Designer for workflow automation rules and platform process configurations.
- Studied the Automated Test Framework (ATF) to evaluate form layouts and platform reporting modules.
- Studied Agentic AI infrastructure concepts while preparing for the ServiceNow Certified System Administrator examination.

PROJECTS

Q-Key – Quantum Random Number Generation for Trusted Keys view
Hackathon Project • ***Technologies:*** *Python, External QRNG API, REST API, Cryptography*

- Integrated an external Quantum Random Number Generator (QRNG) API to retrieve high-entropy random data for trusted key-generation workflows.
- Developed backend components for random-data retrieval, entropy-related analysis, randomness conditioning, and cryptographic key-material generation.

Nyaya Path – Law Education and Rights Awareness Platform view
Academic Project • ***Technologies:*** *HTML, CSS, JavaScript*

- Developed a web-based legal education and rights awareness platform featuring interactive front-end components.
- Implemented structured navigation and user interface features such as Know Your Rights, legal FAQs, resources, and lawyer appointment information to maximize application usability.

Vehicle Rental System view
Academic Project • ***Role:*** *Team Lead* • ***Technologies:*** *Python, Object-Oriented Programming (OOP)*

- Coordinated project tasks as the team lead and contributed to developing the foundational application architecture.
- Applied Object-Oriented Programming principles to implement vehicle availability management, rental/return operations, and calculation models for rental-cost parameters.

Complaint Management System view

Personal Project • ***Technologies:*** *MERN Stack (MongoDB, Express.js, React, Node.js)*

- Developed a full-stack complaint management application leveraging MongoDB, Express.js, React, and Node.js.
- Implemented complete database integration and CRUD operations to seamlessly structure, view, update, and delete complaint records within user interface environments.

EDUCATION

Lakireddy Bali Reddy College of Engineering (LBRCE) Expected Graduation: 2028
B.Tech in Computer Science and Engineering (Pursuing Honours in Cybersecurity) **CGPA: 9.74 / 10.0**

Sri Chaitanya Junior College 2024
Intermediate (MPC) **Percentage: 98%**

GDETMC High School 2022
Secondary School Certificate (SSC) **Percentage: 88%**

CERTIFICATIONS

- **Programming:** Python Programming (NPTEL) • Python Foundation (Infosys) • Python Essentials 1 (Cisco) • Python Essentials 2 (Cisco) • C Programming (Cisco)
- **Web Development:** HTML Basics (Infosys) • HTML Advanced (Infosys)
- **Databases:** Introduction to SQL (Simplilearn) • SQL Using MySQL (Scaler) • Database Design (Scaler)
- **Cybersecurity:** Introduction to Cybersecurity (Cisco) • Cybersecurity Essentials (Cisco) • Cyber Security (ExcelR)

TRAINING

- **MERN Stack Training:** Attended curriculum-based training sessions covering MongoDB, Express.js, React, Node.js, and full-stack web development concepts to build foundational web architecture knowledge.

ACHIEVEMENTS

- **MEDHA Quiz Competition:** Secured 3rd place in the technical quiz tournament held at Lakshya 2K26.
- **Coding Competitions:** Actively participated in institutional coding contests and programming platforms to solve algorithmic challenges.
- **Programming Practice:** Regularly practices programming problems on LeetCode and HackerRank.
